"Action Research for Kids" provides teachers with comprehensive, creative, and hands-on units to engage students in action research. Students will benefit from learning about quantitative and qualitative research practices that can make a real difference in their lives and those within their communities. Within this text, teachers can select a lesson or use whole units as they explore research methods such as survey research, experimental research, life history, and photovoice in fun lessons that ask them to create a library wish list, interview people in their communities, lobby for cookies in the cafeteria, and experiment with preservatives. Each lesson comes with detailed instructions and ideas for differentiation.
