Hands on Science/Brains on Math Thomas Camilli

This comprehensive resource gives you a detailed guide to plan, design, and develop science-centered thematic organizers, hands-on science experiments, brains-on math activities, and cross-curricular connections. Complete step-by-step instructions are provided for all activities. Activities include: colors of the rainbow, slips and slides, drips and drops, soap bubble geometry, kaleidoscope, and more. Each project clearly defines goals and objectives for you and your students, and also provides background information and, where appropriate, ideas for extending the activity. Materials lists for experiments are included, all of which employ readily available, inexpensive items. You also get lots of reproducibles, including templates for various activities, logbooks, journals, recording forms, a Dear Parents letter, and an award certificate. Instructive diagrams and illustrations throughout. An extensive bibliography is also provided for your ready reference. All 128 pages perforated for easy removal.
