Conflicting Loyalties in the Balkans: The Great Powers, the Ottoman Empire and Nation-Building (Library of Ottoman Studies)

The collapse of the Ottoman Empire resulted in the birth of new nation states in the Balkans in the late nineteenth and early twentieth centuries. *Conflicting Loyalties in the Balkans* explores the effects of the Ottoman reform era upon Balkan societies in order to shed much-needed light on the history of this region during the early nation-state period. Focusing on developments which go beyond the over-researched dimension of political or elite discourse, this book offers insights into the complex ways in which Balkan societies were transformed from different regional viewpoints -- focusing on the interplay between Great Power politics, state reforms and social dynamics on the ground. A thorough investigation of the conflicting loyalties which has shaped the political framework of the post-Ottoman Balkans, this is an important and fascinating insight into the logic and contradictions of daily life in a crucial period of Balkan and Ottoman history.
