Family Genealogy Queries: Sampler No. 5: A generous serving of family history mysteries from the South (Southern Genealogical Research) R. Stephen Smith

We've chosen some of the most interesting family mysteries to include in this generous sampler of reader-submitted queries. These stories first appeared in a genealogy magazine published several years ago, and now out of print.

Genealogy queries are a time-honored way for family researchers to share information with others working on the same family lines. A typical query includes information on births, deaths, marriages, children of a given couple, family migrations, etc. Some trace several generations of one family. Some even include colorful family stories that have been passed down through the years!

Like our previous samplers, this volume highlights some of the best and most intriguing of those stories. If you like history -- especially southern history -- you'll enjoy reading them, even if you are not currently working on your own family tree. But if you are into genealogy, you'll be pleased to read how others have attempted to solve those stubborn family puzzles that we all have.

Besides providing some enjoyable reading, this inexpensively priced sampler (which follows three previous such samplers) shows the types of information contained in the queries that appeared in the magazine, as well as in the surname-specific volumes in this series, also available in Kindle
