Math genius Sera and history buff Dak live in a world slightly different from the one we know—a world controlled by a powerful and fearsome group known as the SQ. When the friends discover a device called the Infinity Ring, they learn that it can transport them to any place and time. But their adventures won't simply be for the fun of seeing other places or experiencing different centuries—they've been given a mission that places the fate of the world in their hands. Scholars in the future have identified times when the SQ "broke" history, changing the course of events to seize power. Joined by teenage language expert Riq, Dak and Sera must travel back to these breaks, searching for clues and cracking codes to set the past on the right path. But any mistakes they make could bring about the end of civilization! With characters using cutting-edge technology and historical knowledge as they journey through time, this innovative series offers both excitement and learning for middle-grade readers. An interactive online component allows kids to participate in episodes of the story between the books through role-playing and puzzle-solving.
