Strategies and Games: Theory and Practice Prajit K. Dutta

Game theory has become increasingly popular among undergraduate as well as business school students. This text is the first to provide both a complete theoretical treatment of the subject and a variety of real-world applications, primarily in economics, but also in business, political science, and the law. *Strategies and Games* grew out of Prajit Dutta's experience teaching a course in game theory over the last six years at Columbia University. The book is divided into three parts: Strategic Form Games and Their Applications, Extensive Form Games and Their Applications, and Asymmetric Information Games and Their Applications. The theoretical topics include dominance solutions, Nash equilibrium, backward induction, subgame perfect equilibrium, repeated games, dynamic games, Bayes-Nash equilibrium, mechanism design, auction theory, and signaling. An appendix presents a thorough discussion of single-agent decision theory, as well as the optimization and probability theory required for the course. Every chapter that introduces a new theoretical concept opens with examples and ends with a case study. Case studies include Global Warming and the Internet, Poison Pills, Treasury Bill Auctions, and Final Jeopardy. Each part of the book also contains several chapter-length applications including Bankruptcy Law, the NASDAQ market, OPEC, and the Commons problem. This is also the first text to provide a detailed analysis of dynamic strategic interaction.

From reader reviews:

John Casale:

Spent a free time to be fun activity to complete! A lot of people spent their leisure time with their family, or all their friends. Usually they doing activity like watching television, likely to beach, or picnic inside the park. They actually doing same task every week. Do you feel it? Do you want to something different to fill your personal free time/ holiday? Can be reading a book is usually option to fill your cost-free time/ holiday. The first thing you will ask may be what kinds of publication that you should read. If you want to test look for book, may be the book untitled Strategies and Games: Theory and Practice can be very good book to read. May be it may be best activity to you.

Florence Booth:

Do you have something that you want such as book? The book lovers usually prefer to opt for book like comic, brief story and the biggest one is novel. Now, why not attempting Strategies and Games: Theory and Practice that give your enjoyment preference will be satisfied by simply reading this book. Reading addiction all over the world can be said as the opportunity for people to know world considerably better then how they react toward the world. It can't be claimed constantly that reading addiction only for the geeky particular person but for all of you who wants to be success person. So , for every you who want to start examining as your good habit, you can pick Strategies and Games: Theory and Practice become your starter.

Raymond Bailey:

As a university student exactly feel bored to be able to reading. If their teacher expected them to go to the library or to make summary for some guide, they are complained. Just minor students that has reading's soul or real their interest. They just do what the educator want, like asked to the library. They go to there but nothing reading critically. Any students feel that reading is not important, boring and also can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this Strategies and Games: Theory and Practice can make you experience more interested to read.

Carlee Smith:

Reading a guide make you to get more knowledge from that. You can take knowledge and information from your book. Book is published or printed or outlined from each source this filled update of news. In this modern era like right now, many ways to get information are available for you. From media social like newspaper, magazines, science guide, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Are you hip to spend your spare time to open your book? Or just looking for the Strategies and Games: Theory and Practice when you required it?
