Oxford Handbook of Clinical Haematology D. Provan, A. S. Duncombe, M. Chisholm, A. G. Smith, C. R. J. Singer

The new addition to the Oxford Handbook series, the Oxford Handbook of Clinical Haematology, provides the essential core knowledge required in modern clinical practice for the diagnosis and management of patients with possible disorders of the blood. Key information is presented for each topic in an easy-to-use format, providing a full review of haematological investigations and their interpretation in both adults and children, covering commonly used protocols, and giving guidelines for the handling of emergency situations. This pocket handbook will be of use to junior doctors in general medicine and haematology, final year medical undergraduates, MRCP and MRCPPath students and all clinicians who are responsible for the care of patients with haematological diseases.
