College Algebra: Graphs & Models

John Coburn, J.D. (John) Herdlick

College Algebra: Graphs & Models John Coburn, J.D. (John) Herdlick

Three components contribute to a theme sustained throughout the Coburn-Herdlick Series: that of laying a firm foundation, building a solid framework, and providing strong connections. In the Graphs and Models texts, the authors combine their depth of experience with the conversational style and the wealth of applications that the Coburn-Herdlick texts have become known for. By combining a graphical approach to problem solving with algebraic methods, students learn how to relate their mathematical knowledge to the outside world. The authors use technology to solve the more true-to life equations, to engage more applications, and to explore the more substantial questions involving graphical behavior. Benefiting from the feedback of hundreds of instructors and students across the country, College Algebra: Graphs & Models emphasizes connections in order to improve the level of student engagement in mathematics and increase their chances of success in college algebra.

The launch of the Coburn/Herdlick Graphs and Models series provides a significant leap forward in terms of online course management with McGraw-Hill's new homework platform, Connect Math Hosted by ALEKS Corp. Math instructors served as digital contributors to choose the problems that will be available, authoring each algorithm and providing stepped out solutions that go into great detail and are focused on areas where students commonly make mistakes. From there, the ALEKS Corporation reviewed each algorithm to ensure accuracy. A unifying theme throughout the entire process was the involvement of the authors. Through each step, they provided feedback and guidance to the digital contributors to ensure that the content being developed digitally closely matched the textbook. The result is an online homework platform that provides superior content and feedback, allowing students to effectively learn the material being taught.

From reader reviews:

Angel Huitt:

Reading a e-book can be one of a lot of pastime that everyone in the world likes. Do you like reading book therefore. There are a lot of reasons why people enjoyed. First reading a e-book will give you a lot of new facts. When you read a reserve you will get new information mainly because book is one of a number of ways to share the information or their idea. Second, reading through a book will make a person more imaginative. When you examining a book especially fictional works book the author will bring you to imagine the story how the people do it anything. Third, you may share your knowledge to others. When you read this College Algebra: Graphs & Models, you can tells your family, friends and soon about yours book. Your knowledge can inspire average, make them reading a e-book.

Jo Lee:

The guide untitled College Algebra: Graphs & Models is the book that recommended to you to learn. You can see the quality of the publication content that will be shown to you. The language that creator use to explained their ideas are easily to understand. The copy writer was did a lot of study when write the book, hence the information that they share for you is absolutely accurate. You also might get the e-book of College Algebra: Graphs & Models from the publisher to make you much more enjoy free time.

Jeremy Robinson:

The book untitled College Algebra: Graphs & Models contain a lot of information on it. The writer explains your girlfriend idea with easy method. The language is very easy to understand all the people, so do not necessarily worry, you can easy to read the idea. The book was compiled by famous author. The author provides you in the new age of literary works. It is easy to read this book because you can read on your smart phone, or gadget, so you can read the book in anywhere and anytime. In a situation you wish to purchase the e-book, you can open their official web-site in addition to order it. Have a nice examine.

Nicolas Dandrea:

That reserve can make you to feel relax. This specific book College Algebra: Graphs & Models was colorful and of course has pictures on the website. As we know that book College Algebra: Graphs & Models has many kinds or variety. Start from kids until youngsters. For example Naruto or Investigator Conan you can read and feel that you are the character on there. Therefore not at all of book are generally make you bored, any it can make you feel happy, fun and rest. Try to choose the best book for you personally and try to like reading which.
