## **Objective-Based Safety Training: Process and Issues** Kenneth L. Miller

What are the four major areas always in the safety practitioner's mind? Preventing injuries - preventing catastrophic losses - protecting the organization from regulatory problems - and showing value to the organization. This book prepares the safety management practitioner for training in a diverse workforce while creating a program that meets the specific needs of a client or corporation. It evaluates the barriers that a trainer may encounter and offers techniques to overcome them. This book will assist the trainer to create a training program which is geared towards adult learning. Showing that training is hitting the mark through behavioral change supports the overall organization's goals.
