The Roswell Legacy: The Untold Story of the First Military Officer at the 1947 Crash Site Jesse Marcel Jr., Linda Marcel

Does extraterrestrial life exist? Have alien beings actually visited Earth and, indeed, left clear traces of their visits? One man has the answer...and his son can now break the silence. The Roswell Legacy is the story of Major Jesse Marcel, the intelligence officer for the 509th Bomber Group (famous for dropping the atomic bomb on Japan), and the first military officer to reach the scene of one of the most famous and enduring UFO events in the recorded history of mankind. This book documents the recovery of debris from the crash of an extraterrestrial craft and how the Marcel family became forever linked to the event. It details what the debris looked like, how it greatly differed from that of the "weather balloon" that was supposedly recovered, and the physical characteristics that prove it could have only come from a technology that was not available in the 1940s (or, perhaps, even now).
