## **New Process Technology for Developing Low-Cost, Environmentally Safe Biofuels**

Rising fuel prices have created a surge in the worldwide demand for biofuels made from plant and animal feedstocks. Filled with a wealth of illustrations, *Biofuels Engineering Process Technology* fully explains the concepts, systems, and technology now being used to produce biofuels on both an industrial and small scale.

Written by a team of leading biofuels experts, this lucid guide presents a complete introduction to biofuels and biorefining processes...state-of-the-art information on biofuels processed from fermentations of ethanol, hydrogen, microbial oils, and methane...new material on the production of biodiesel from plant and algal oils...and the use of microbial fuel cells to produce bioelectricity. *Biofuels Engineering Process Technology* takes readers step by step through:

- The key concepts, systems, and technology of biofuels
- A review of the basic concepts of fermentation pathways and kinetic modeling of bioreactors
- Biofuels produced from fermentations of agricultural feedstocks and biomass-ethanol, hydrogen, microbial oils, and methane
- Biodiesel fuels processed from the chemical conversion of microbial and plant oils
- Bioelectricity produced from microbial fuel cells
- The latest sustainable biorefinery concepts and methods

### **Inside This Cutting-Edge Biofuels Engineering Guide**

• Introduction • Fuels from Fermentations: Ethanol • Hydrogen • Microbial Oils • Methane • Fuel from Chemical Conversion of Plant and Algal Oils: Biodiesel • Microbial Fuel Cells • Technical Resources

### **From reader reviews:**

#### **Charles Anthony:**

Do you have favorite book? When you have, what is your favorite's book? E-book is very important thing for us to know everything in the world. Each guide has different aim or even goal; it means that reserve has different type. Some people truly feel enjoy to spend their time and energy to read a book. They are really reading whatever they consider because their hobby is usually reading a book. How about the person who don't like examining a book? Sometime, person feel need book when they found difficult problem or maybe exercise. Well, probably you will need this Biofuels Engineering Process Technology.

#### **Maritza Berry:**

The book Biofuels Engineering Process Technology will bring you to the new experience of reading the book. The author style to clarify the idea is very unique. In case you try to find new book to study, this book very suitable to you. The book Biofuels Engineering Process Technology is much recommended to you to study. You can also get the e-book from official web site, so you can more easily to read the book.

#### **Nicholas Buchanan:**

Do you one of the book lovers? If yes, do you ever feeling doubt if you are in the book store? Make an effort to pick one book that you never know the inside because don't evaluate book by its include may doesn't work the following is difficult job because you are afraid that the inside maybe not since fantastic as in the outside appearance likes. Maybe you answer can be Biofuels Engineering Process Technology why because the fantastic cover that make you consider regarding the content will not disappoint you. The inside or content is actually fantastic as the outside as well as cover. Your reading 6th sense will directly assist you to pick up this book.

#### **Nolan Russell:**

This Biofuels Engineering Process Technology is completely new way for you who has interest to look for some information because it relief your hunger of information. Getting deeper you on it getting knowledge more you know or you who still having small amount of digest in reading this Biofuels Engineering Process Technology can be the light food to suit your needs because the information inside this particular book is easy to get by means of anyone. These books create itself in the form that is reachable by anyone, yeah I mean in the e-book web form. People who think that in publication form make them feel sleepy even dizzy this e-book is the answer. So there isn't any in reading a guide especially this one. You can find actually looking for. It should be here for anyone. So , don't miss that! Just read this e-book sort for your better life and also knowledge.
