When twenty-two-year-old Lysa travels to the Outer Rim Colony on Callisto to be a miner's wife, she isn't in it for love or even for the fairly generous pay. She undertakes the voyage because the government refuses to let women into technological fields, and the mining colony is her only chance at learning in secret. But upon reaching the colony, it isn't long before Lysa wonders if she is in way over her head.

Blake, the man she is to marry, brings her almost immediately to the colony doctor for an incredibly thorough, humiliating medical examination. Even more disturbing is the fact that apparently her marriage contract gives Blake the right to discipline her when he feels it necessary, including by means of a bare-bottom spanking.

After Lysa confesses to Blake the real reason she came to the colony, he reluctantly agrees to help her as long as she promises not to neglect her wifely duties. To her surprise, despite her new husband's less-than-enlightened views on how a misbehaving wife should be dealt with, Lysa soon find herself both enjoying his company and craving his skilled, dominant lovemaking. But when the head of the colony learns that Lysa is illegally studying to be an engineer and that Blake is helping her, will they be forced apart forever?
