Fuzzy Logic-Based Modeling in Collaborative and Blended Learning (Advances in Educational Technologies and Instructional Design) Sofia J. Hadjileontiadou

Technology has dramatically changed the way in which knowledge is shared within and outside of traditional classroom settings. The application of fuzzy logic to new forms of technology-centered education has presented new opportunities for analyzing and modeling learner behavior.

Fuzzy Logic-Based Modeling in Collaborative and Blended Learning explores the application of the fuzzy set theory to educational settings in order to analyze the learning process, gauge student feedback, and enable quality learning outcomes. Focusing on educational data analysis and modeling in collaborative and blended learning environments, this publication is an essential reference source for educators, researchers, educational administrators and designers, and IT specialists.

This premier reference monograph presents key research on educational data analysis and modeling through the integration of research on advanced modeling techniques, educational technologies, fuzzy concept maps, hybrid modeling, neuro-fuzzy learning management systems, and quality of interaction.

From reader reviews:

Christopher Hill:

This Fuzzy Logic-Based Modeling in Collaborative and Blended Learning (Advances in Educational Technologies and Instructional Design) book is not ordinary book, you have it then the world is in your hands. The benefit you have by reading this book is usually information inside this guide incredible fresh, you will get information which is getting deeper an individual read a lot of information you will get. This particular Fuzzy Logic-Based Modeling in Collaborative and Blended Learning (Advances in Educational Technologies and Instructional Design) without we understand teach the one who reading it become critical in pondering and analyzing. Don't become worry Fuzzy Logic-Based Modeling in Collaborative and Blended Learning (Advances in Educational Technologies and Instructional Design) can bring if you are and not make your bag space or bookshelves' turn into full because you can have it with your lovely laptop even cell phone. This Fuzzy Logic-Based Modeling in Collaborative and Blended Learning (Advances in Educational Technologies and Instructional Design) having great arrangement in word and also layout, so you will not feel uninterested in reading.

Maureen Bonds:

Fuzzy Logic-Based Modeling in Collaborative and Blended Learning (Advances in Educational Technologies and Instructional Design) can be one of your beginner books that are good idea. We all recommend that straight away because this e-book has good vocabulary that will increase your knowledge in terminology, easy to understand, bit entertaining but delivering the information. The copy writer giving his/her effort to place every word into delight arrangement in writing Fuzzy Logic-Based Modeling in Collaborative and Blended Learning (Advances in Educational Technologies and Instructional Design) but doesn't forget the main position, giving the reader the hottest and also based confirm resource information that maybe you can be one of it. This great information can certainly drawn you into completely new stage of crucial thinking.

Michael Vines:

You may spend your free time to learn this book this e-book. This Fuzzy Logic-Based Modeling in Collaborative and Blended Learning (Advances in Educational Technologies and Instructional Design) is simple bringing you can read it in the recreation area, in the beach, train along with soon. If you did not possess much space to bring the actual printed book, you can buy typically the e-book. It is make you better to read it. You can save the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

George Tucker:

Beside that Fuzzy Logic-Based Modeling in Collaborative and Blended Learning (Advances in Educational Technologies and Instructional Design) in your phone, it might give you a way to get more close to the new

knowledge or facts. The information and the knowledge you may get here is fresh from the oven so don't always be worry if you feel like an aged people live in narrow town. It is good thing to have Fuzzy Logic-Based Modeling in Collaborative and Blended Learning (Advances in Educational Technologies and Instructional Design) because this book offers to you readable information. Do you at times have book but you would not get what it's exactly about. Oh come on, that will not happen if you have this within your hand. The Enjoyable set up here cannot be questionable, such as treasuring beautiful island. Use you still want to miss this? Find this book in addition to read it from at this point!
